File Suspension Drawer

Lateral File Shelving with Dividers

ENVIRONMENTAL Policy

Montage Interiors aims to achieve best practice of environmental sustainability, not only across our product range, but also as an organisation. In order to attain this we recycle all manufacturing wastes and manufacture with environmentally sustainable and friendly products, where possible. This is also undertaken alongside our clients, to ensure you are provided with the best furniture system possible. All waste products are recycled, reused or disposed of in a responsible manner. We endeavour to use recycled eco panels, sustainable timbers with low or zero emissions, and water based products in favour of solvents, during manufacture.

Extended warranties on many of our core products, reconfigurable workstation systems, plus a buy back/ recycling policy on many items, demonstrates our commitment to Environmentally Sustainable Design (ESD) and Product Stewardship.
