

The **Axis** Screen

The Axis Screen is a slimline screen system with features that provide an effective operational area for staff. Its simple lines allow it to fit into any office space, providing an excellent work environment for the user. This adaptable system can also be easily configured in a variety of workgroups

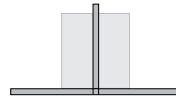

► POSSIBLE CONFIGURATIONS

Axis desk **hung** panel

Axis Panel with **Echo** Panel

AXIS SCREEN SYSTEM Features

The Axis Screen shelf provides useful additional storage and can be manufactured to any size and finish.

► KEY FEATURES

Free standing, top mounted or static base braced

Accessory trays

Manufactured to any size

The Axis Screen Panels can also be covered in a combination of fabrics on the one screen, allowing for more interesting colour schemes and 'feature' panels. Some of these options are listed below:

- Fabric covered panel
- Fabric covered pinable panel
- Echo Panel
- Autex quiet space
- Standard whiteboard
- Magnetic whiteboard
- Magnetic panel
- Pleated blind
- Accessory rail
- High rise feet
- Data & power rail

The **Axis** Screen

AXIS WHITEBOARD Panel

A whiteboard can be incorporated into the screen as an alternative to the standard covered panel if required. This proves a handy area for keeping important notes rather than loose paper, creating a tidier, more organized workspace.

The Axis Screen can also be manufactured with a pleated blind. This allows for optional privacy or a more open plan environment.

ELSAFE SCREEN Components

Screens can be power or non-power, depending on the user requirements. If power is needed, ducts can be fitted into the screen above or below the desk.

Power outlets can be various colours to suit. The number of outlets per screen can also be specified by the client. A separate duct can be supplied for phone and data connections.

The **Axis** Screen

AXIS SCREEN Accessories

The Axis System Panels can be manufactured with a rail which accessory trays can be attached to. This allows the user to keep the usually cluttered desk surface free of paperwork, files, pens and pencils when not in use. These options provide quick access to often referenced materials.

ENVIRONMENTAL

The steel used in the Axis Screen is comprised of 100% new material and therefore fully recyclable. When taken into account all the materials and powder coating used in making this workstation, the total recyclability comes to 99.8% (using eco panel) or 86% (using upholstered panel).

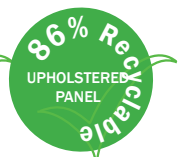

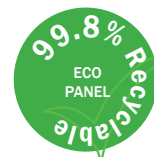

- ▶ 100% recyclable steel frame

- ▶ recyclable fabric coverings

The Axis Screen is an environmentally friendly product

ENVIRONMENTAL Policy

Montage Interiors aims to achieve best practice of environmental sustainability, not only across our product range, but also as an organisation. In order to attain this we recycle all manufacturing wastes and manufacture with environmentally sustainable and friendly products, where possible. This is also undertaken alongside our clients, to ensure you are provided with the best furniture system possible. All waste products are recycled, reused or disposed of in a responsible manner. We endeavour to use recycled eco panels, sustainable timbers with low or zero emissions, and water based products in favour of solvents, during manufacture.

Extended warranties on many of our core products, reconfigurable workstation systems, plus a buy back/ recycling policy on many items, demonstrates our commitment to Environmentally Sustainable Design (ESD) and Product Stewardship.
